

# MINIMISE THE TRANSMISSION OF HARMFUL GERMS

## PURELL® Wall-Mounted Bottle Bracket

### EFFECTIVE HYGIENE WHEREVER YOU NEED IT MOST

Performing effective hand hygiene at high-risk touchpoints such as near door handles and lifts is a great way to slow the transmission of harmful germs through a building.

PURELL Wall-Mounted Bottle Brackets allow 500mL bottles of PURELL Advanced Hygienic Rub to be displayed in high traffic areas, right where it is most needed, encouraging staff and visitors to keep their hands clean at all times.

#### PURELL Wall-Mounted Bottle Bracket

- The bracket's diminutive size allows it to fit in the tightest of spaces, so you can offer hand hygiene no matter what space restrictions you may have.
- Discrete styling means the bracket compliments your decor style, rather than competing with it.
- The PURELL branding remains front and centre at all times, offering your staff and visitors PURELL PEACE OF MIND™. After all, 80% of people have a more positive impression of a facility when PURELL products are on display.<sup>1</sup>
- When you display PURELL products, it sends a clear message that you care about cleanliness, health and well-being by providing world-class hand hygiene solutions.

#### PURELL Advanced Hygienic Hand Rub

No-rinse hygienic hand rub for hand sanitising that contains moisturisers, feels great to use and is clinically proven to keep skin healthy.<sup>2</sup>

- Active against Coronavirus (30s)
- Kills 99.99% of most common germs that may be harmful
- Bactericidal according to EN 1500 (hand sanitiser), virucidal according to EN 14476 and conforms to EN 12791 (surgical rub)
- Specially formulated with moisturisers to leave hands feeling soft and refreshed

# Make PURELL® Advanced Hygienic Hand Rub available anywhere with PURELL Wall-Mounted Bottle Brackets

9530-20-EEU
