

# LONGLIFE complete

## Sustainable development and production

### EMAS:

- Continuous improvement of environmental performance
- Annual sustainability report
- Energy and water management
- Social Fairness

### DIN ISO 14001:

- Continuous improvement in reducing waste and CO2 emissions, and saving of energy, water and material consumption

### ISO 50001:

- Continuous improvement of energy management: performance, efficiency, security, use and consumption

### A.I.S.E.-Charter:

- Safe and sustainable manufacturing of cleaning products

### DIN ISO 9001:

- Continuous improvement of management processes and customer satisfaction
- Established quality management system in product development and production

## green-Effective® Ultra-performance Floor Polish

### Eco-efficient performance with eco-effective product design

User and environmental safety at the highest cleaning performance

- Developed to fulfil the Austrian Ecolabel
- Complete abandonment of toxic and harmful materials
- Outperforms other products at lower use concentration

### Intensive use of renewable resources – continuous increase of the reutilisation score

- Production under extensive use of renewable raw materials and energy using to 100% hydroelectric, solar and geothermic power
- Active water stewardship maintaining an own fresh and waste water treatment

### Ingredient declaration

For the ingredients list, please see the Safety Data Sheet

### Traditional German quality - driving your durable business development

- More than 25 years pioneer in sustainable product development
- Smart hygiene solutions ensuring profitable growth
- Trusted brand

### Professional user training and on-site support for Sustainable Hygiene Solutions

- Comprehensive knowledge transfer through qualified cleaning consultants
- Customized hygiene plans and cleaning recommendations optimizing your business and cleaning procedures
- Increased service value and strengthened company reputation

makes the difference

# LONGLIFE complete

## **green-Effective® Ultra-performance Floor Polish**

■ Complete economy ■ Complete safety ■ Complete flexibility

### Product profile

- LONGLIFE complete provides the complete solution for highest standards in coating of hard and elastic floors combined with exceptional environmental properties.
- Meanwhile enhancing the work safety, LONGLIFE complete assures outstanding durability and resistibility even against alcohol and skin disinfectants as well as a long-life pleasant appearance and gloss.
- LONGLIFE complete is completely user safe due to its time-saving processability even on damp linoleum floors, its reduced slip hazard whilst stripping and its easy-to-use features. Its certification according DIN 18032-2 proves outstanding slip resistance.
- LONGLIFE complete is as flexible as an elastic coating, extremely adhesive and elastic and therefore, suitable for elastomer (rubber) flooring and areas with high point load.
- This product works ideally in a system with LINAX complete, which easily removes even multi-layer LONGLIFE complete polymer films.
- By the complete abandonment of hazardous ingredients such as zinc, TBEP and fluorinated levelling agents, LONGLIFE complete takes on the responsibility for future generations.

### Area of application

- LONGLIFE complete is suitable for universal use on all coatable flooring especially elastic flooring made of PVC, linoleum, natural rubber and other special synthetic materials.
- Specially recommended for highly frequented areas, e.g. hospitals, schools, retail markets, airports, entrance areas etc. where high durability and long life cycle of coating is required.
- Not to be used on polished stone floors, stoneware tiles, as well as on unsealed wood.

### Product safety, storage and environmental instructions

**Safety:** For professional use only. Keep away from children. Do not mix with other products. Test material compatibility before use. For further information, see Safety Data Sheet.

**Storage:** Store at room temperature in the original container. The storage and transport temperature of LONGLIFE complete must not exceed 30°C. Keep from freezing.

**Environmental:** Only give completely emptied packaging in the recommended waste container. Proper dosing saves costs and minimises environmental impact.

### Application and Dosing

Dose in relation to application. Follow below instructions.

**Floor preparation:** strip the floor, remove all dirt and old dispersion layers.

**Initial treatment:** apply 2-3 thin and uniform layers. Drying time between the applications at least 30min.

**Large areas:** work in sections and apply wet in wet. Usage: approx. 2 L / 100 m².

**Coating refreshment:** remove slight scratches using the spray-cleaner-method and a highspeed machine with red pad.
