

M-SAFE NITRILE GRIPPAZ GLOVES 246BK 246OR

SUPERIOR NITRILE AMBIDEXTROUS GLOVES OFFERING UNPARALLELED STRENGTH AND GRIP. GRIPPAZ USES A SPECIALLY FORMULATED ORGANIC COMPOUND, WHICH PROVIDES AN EXCEPTIONAL TEAR RESISTANCE AND A HIGHER DURABILITY IN OILY ENVIRONMENTS.

SUITABLE FOR: ✓ Automotive ✓ Mechanics ✓ Engineers ✓ Agriculture ✓ Assembly ✓ General Use

SIX UNIQUE FEATURES THAT HIGHLIGHT WHY GRIPPAZ GLOVES ARE DIFFERENT TO ANY OTHER GLOVES IN THEIR FIELD

O AMBIDEXTROUS

The gloves are not hand specific, so you don't have to split a pair to replace a damaged glove.

2 TRACTION GRIP

Ergonomically designed. Not only for wet grip on the outside, but also to reduce hand slippage on the inside.

SUPERIOR NITRILE

Grippaz gloves are
100% nitrile. No issues
with latex protein allergy
and better chemical and
puncture resistance than latex.

4 CUFF

This is not a typical household glove shape. The cuff is beaded and designed so it doesn't flop down in use and can easily be worn under oversleeves and over liners.

O EXCELLENT FIT

The stretch formula nitrile allows Grippaz to fit more snugly than traditional household gloves. Try them on against traditional gloves and see which you'd rather work with.

@ DEXTERITY

Grippaz has the maximum Dexterity level 5.
