

Swarfega® PROTECT

Pre-work, fragrance-free, hand barrier cream

PRODUCT DESCRIPTION

Universal, non-greasy, fragrance-free, pre-work skin cream that protects hands against oil and water-based substances such as oil, grease, lubricants and detergents helping prevent dirt adhesion, aiding cleaning. Compatible with latex, vinyl and nitrile gloves.

WHERE TO USE

For all trades people.

INSTRUCTIONS FOR USE

Apply 1ml to clean and dry skin before starting each work period and after washing hands.

Rub on all areas of the hands, including between the fingers and around the fingernails.

	DESCRIPTION	BENEFITS
FEATURES	Non-greasy or sticky	Designed to leave no greasy after feel, encouraging regular use.
	Proven universal protection	Suitable for a wide range of working environments with moderate exposure to varying types of water and oil based substances.
	Dermatologically tested and shown to be non-irritating in use	This product is tested by an independent dermatologist using Human Repeat Insult Patch Tests (HRIPT) to verify and confirm this product does not irritate the skin and has very low allergenic potential.
	Protective film does not effect hand dexterity	Leaves a pleasant, non-tacky protective film on the skin to encourage regular use and does not affect dexterity with hand held tools.
INGREDIENTS	Contains Glycerin	A skin moisturiser to help prevent drying and leave the skin feeling smooth after use.
	Contains Xanthan Gum	Highly effective polymer which is used to stabilise the protective film provided by the product when applied to the skin.
	Contains Kaolin	A natural mineral which sits in the skin pores to help prevent them from becoming blocked by oil-based substances.
	Perfume-free	Designed for people who are sensitive to perfumes and who prefer products which do not have these added.
	Silicone-free	Reduces the risk of silicone-related compatibility issues, if in contact with surfaces prior to the application of paint or surface coatings.
CERTIFICATES/ COMPATIBILITY	Proven glove compatibility	Suitable for use with latex, vinyl and nitrile gloves.
	Suitable for food facilities	The product has been independently evaluated and proven to not have the potential to taint food. Food handlers should use product only in accordance with usage instructions and product should not come directly into contact with food or items that contain food.
	Compatible with rubber production processes	Independently tested at the German Institute of Rubber Technology (DIK) and proven to have no negative effect on the vulcanisation process.

Swarfega® PROTECT

Pre-work, fragrance-free, hand barrier cream

HANDLING PRECAUTIONS:

Avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water (for at least 10 minutes) and seek medical advice.

STATUTORY REGULATIONS

This product is a cosmetic product regulated by and complying in GB with the GB Cosmetics regulation (Schedule 34 of the Product Safety and Metrology etc. (Amendment etc.) (EU Exit) Regulations 2019 (as amended)) & in ROI/NI with EC No 1223/2009 (as amended) on Cosmetic Products.

SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information please refer to the Safety Data Sheet which can be downloaded from <https://www.scjp.com/en-gb/safety-data-sheets>.

SHELF LIFE

This product has a shelf life of 30 months from the date of manufacture when stored unopened at room temperature. For shelf life after opening: see indication on packaging.

QUALITY ASSURANCE

SC Johnson Professional products are manufactured in facilities which follow appropriate quality assurance practices, including with respect to quality control processes for raw materials and finished goods, and comply with any regulatory requirements applicable to the manufacturing of such products.

SUITABLE FOR USE IN FOOD HANDLING AREAS

When used as instructed, Swarfega® Protect does not influence the quality of foodstuffs. The product has been independently tested according to Sensory Analysis - Methodology - Triangle Test BS EN ISO 4120:2007 and has been proven to not have the potential to taint food, thereby supporting and meeting HACCP standards for impact on the smell and taste of foodstuffs.

PRODUCT SAFETY ASSURANCE

Skin Hypoallergenic Risk Assessment

The formulation has been assessed by an independent toxicologist to be formulated in such a way as to provide either minimal or no risk of provoking allergic skin response and thus meets the requirements for being described as 'Hypoallergenic' (Delphic Solutions Ltd, UK). Allergy sufferers should always refer to the ingredient list before using the product.

Skin Hypoallergenic

The perfume-free and dye-free formulation did not demonstrate a potential for eliciting dermal irritation or sensitisation after conducting an independent 6 week Human Repeat Insult Patch Test (HRIPT).

Allergy sufferers should always refer to the ingredient list before using the product.

Skin Compatibility Test

Independent dermatological tests conducted to assess the skin compatibility of the product using voluntary test persons in occlusive, 48 consecutive hour application models, shows the product to be non-irritating in use.

COMPATIBILITY TESTS

Glove Compatibility

In independent testing, the use of Swarfega® Protect cream in combination with reputable latex, vinyl and nitrile gloves does not have any deleterious effect on the glove tensile properties using BS EN 455-2:2009 test methodology.

Rubber Production Process Compatibility

In testing conducted by the Deutsches Institut für Kautschuktechnologie (DIK) in accordance with DIN EN ISO/IEC 17025, the use of Swarfega® Protect cream in rubber production process does not influence the cohesive strength of rubber.

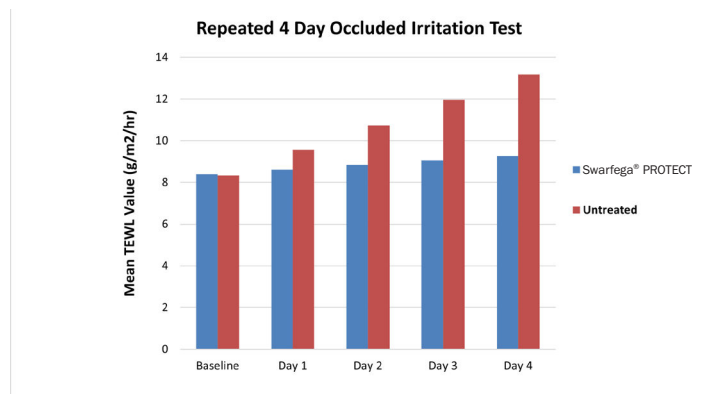

EFFICACY TESTS

Barrier Property Test

Repeated Occlusive Irritation Patch Testing using 25 healthy panellists was conducted using one water soluble substance (Sodium Lauryl Sulphate) and one non-water based substance (Ethyl Acetate/ Undecylenic Acid, 1:1). Each substance was applied at one time per day for 30 minutes over 4 days, alternating the water-based substance in the morning and non-water based in the afternoon.

Results show Swarfega® PROTECT cream significantly reduces Trans Epidermal Water Loss (TEWL) compared to unprotected skin.

Barrier Property Test

INGREDIENTS

AQUA (WATER), KAOLIN, CETEARYL ALCOHOL, DICAPRYLYL CARBONATE, GLYCERIN, PHENOXYETHANOL, XANTHAN GUM, SODIUM CETEARYL SULFATE, SODIUM LAURYL SULFATE, SODIUM BENZOATE, CITRIC ACID.
